Outlook Manage your email, schedules, contacts, and to-do items. Outlook is the one place to go to communicate with all of your important contacts.

Word Create documents with style, polish work with others easily, and enjoy the new reading experience on modern touch devices.

PowerPoint Easily work with others and design beautiful presentations. Presenting tools help you deliver your ideas and impress your audience.

OneNote All your notes together and with you anywhere. OneNote is your digital notebook for capturing to-dos, meeting notes, and anything else you need to remember.

Excel Excel gives you intuitive ways to explore your data. Quickly discover new ways to visualize your data, and see your information in new depths.

Publisher Use familiar, simple tools to create and share professional-looking, personalized publications that make an impact.

OneDrive, Skype for Business and more. Depending upon the Plan you choose, enjoy a range of applications including online file storage and sharing, web conferencing and more.

...plus great new benefits from the cloud

Office is delivered as a per-user subscription that takes advantage of the benefits associated with the cloud.

Be always up to date With Office connected to the cloud, you always have the latest version of the desktop applications, with unobtrusive updates.

Use Office on your smartphone and tablet Access your documents and make edits on the go with Office apps for iPad, Windows Phone, iPhone, and Android phones.

Use on 5 PCs and Macs Each user can use the Office desktop applications on 5 Windows PCs or Macintosh computers, at work or at home.

Anywhere access to documents Office saves to your online storage by default, so your files are automatically backed up and linked to you virtually anywhere you go. No more heading back to the office to get a file or document.

For a detailed comparison of Enterprise Plans, read this [Office 365 Enterprise Plan brochure](#).

1. Publisher and Access: Windows PC client program and/or features only; cannot be used across devices. Most plans that do not include the desktop version of Office work with the latest version of Office, Office 2013, and Office 2011 for Mac. Previous versions of Office, such as Office 2010 and Office 2007, may work with Office 365 with reduced functionality. This compatibility with Office does not include the Exchange Online Kiosk or Office 365 Enterprise K1 plans.

2. For a list of available mobile devices and apps click [here](#).

3. For subscriptions that do not include the fully installed Office applications: Users can connect the following versions of Outlook to their business-class email, so they can use the rich client application they already know: the latest version of Outlook, Outlook 2013, and Outlook 2011 for Mac. Previous versions of Outlook, such as Outlook 2010 and Outlook 2007, may work with Office 365 with reduced functionality. This compatibility with Outlook does not include the Exchange Online Kiosk or Office 365 Enterprise K1 plans.

4. Skype for Business is not yet available for Mac. Lync for Mac 2011 is the latest version. Lync for Mac is compatible with Skype for Business Server and Skype for Business Online.
