Citrix Hosting

Deliver Software as a Service (SaaS) or Virtual Desktop Infrastructure (VDI) With Connectria Citrix Hosting

Deliver Software as a Service (SaaS) or Virtual Desktop Infrastructure (VDI)
With Connectria Citrix Hosting

- ▶ Citrix XenApp Hosting
- ▶ Citrix XenDesktop Hosting
- ▶ VDI Hosting (Virtual Desktop Infrastructure Hosting)
- ▶ Citrix VDI-in-a-box Hosting

We utilize Citrix XenApp, Citrix XenDesktop, Citrix Receiver and Citrix Netscaler appliances to deliver hosted Windows applications and hosted Windows desktops. They can be accessed via the Internet and viewed by Windows PCs and Macs as well as smartphones and tablet platforms including Apple, Android, HP and RIM. We utilize Citrix XenApp Hosting to deliver both hosted Windows applications and hosted Windows desktop environments. Citrix XenDesktop Hosting and Citrix VDI-in-a-box Hosting are utilized to deliver Virtual Desktop Infrastructure (VDI) solutions.

From 2 Users To 5,000 Users Or More:

We offer a wide range of Citrix hosting solutions for businesses and deployments of all sizes. From our pre-built **Citrix Cloud Services** for up to 20 users to our custom Citrix solutions for up to 5,000 users or more. Connectria's certified Citrix and Microsoft engineers use a mix of dedicated servers, public cloud servers, private cloud environments, or a combination of each to customize the right solution for your organization. As a Certified Citrix Service Provider, Connectria can also "rent" our clients the necessary Citrix software and appliances they need for a successful Citrix cloud deployment, saving you time and money.

Expert Support & Advice:

Our Citrix Hosting customers run business-critical applications in a wide range of industries, and Connectria's highly skilled Citrix engineers help our clients implement secure, high-performance, and highly reliable Citrix environments to meet their needs. We can assist you in determining the right approach to meet your performance, reliability, security and cost requirements. We have particular expertise in implementing Citrix Hosting solutions for customers that require **HIPAA Compliant Hosting**. Connectria's Citrix hosting customers include companies of all sizes including Funny or Die, **Lendmark Financial Services**, **Conexsys**, **TCS Healthcare**, Jet Aviation, **Schlafender Hase**, **MetaComet**, and **Quality Pharmacy Management**, among many others.

Connectria's Citrix QuickStart Program - Citrix Made Easy: Ready for a Citrix solution?

With Connectria's Citrix QuickStart Program, customers can quickly implement a production-ready, scalable Citrix environment either for testing purposes, or to begin running a Citrix environment. This can be used for both Software as a Service (SaaS) implementations such as hosted Windows applications, as well as to run hosted Windows desktop environments using XenApp.

You can purchase our Citrix QuickStart Program on a month-to-month basis for up to 90 Days, and scale it up or down as needed. Several components of the QuickStart Program are provided **FREE** of charge during the 90 day program, including a firewall, a Citrix NetScaler VPX Express appliance, (5) Citrix XenApp users, and (1) instant SSL certificate.

Most components can continue to be purchased on a month-to-month basis going forward, while others may require a longer term commitment, including the different Citrix NetScaler appliances, should your environment require a more robust architecture. Either way, your Connectria Sales Engineer will work with you to explain your options upfront, so that there are no surprises and you can make an informed decision.

Whether you choose the Citrix QuickStart Program or not, Connectria will ensure we provide a solution that best meets your dedicated or cloud hosting needs at an affordable price. Please **contact us** to talk with a Connectria Sales Engineer if you would like to receive a quote.

Sample Citrix Quickstart Hosting Configuration:

Connectria can start you with a basic QuickStart configuration, a large scale environment (see below), and everything in between.

Sample Large-Scale Citrix Hosting Configuration:

Connectria has implemented hundreds of unique environments for our customers around the world. This is a more robust scenario (beyond our Citrix QuickStart Program), which was designed to support hundreds or even thousands of users.

If you haven't seen a configuration that more closely matches your needs, our Sales Engineers and Citrix Engineers will work with you to develop the right approach to meet your cost and performance needs.

Please **contact us** if you'd like to learn more about which solution(s) would be best to meet the needs of your specific project.
