

UNLOCK NEW CAPABILITIES WITH MANAGED MICROSOFT AZURE

Azure, Private Cloud, On Premises supported by Connectria

Combine the power of Azure with Connectria's expert managed services and get a cloud solution that expands your IT capabilities for a more flexible, agile, and scalable environment.

Hybrid capabilities: Optimize your workloads across customized hybrid solutions that span on-premises, private cloud, and Microsoft Azure.

Scalability with Availability: Scale to thousands of virtual machines, or deploy thousands of SQL databases, while maintaining 99.95% uptime.

Easy to move to Azure: We help you determine which workloads can take advantage of the full suite of services Azure provides and then we can migrate and support them for you.

Secure and Compliant: Azure helps keeps customer data secure through encrypted communications and meets or exceeds all major compliance regulations including data sovereignty requirements, HIPAA, PCI, and SOX.

Connectria Managed Services: Expert Managed Services and 24x7 Support

Extend your existing infrastructure

Gain a competitive advantage with the ability to quickly and easily expand your IT infrastructure to meet the needs of your business.

Speed time to market with the ability to launch Virtual Machines in minutes.

Save time, lower costs

Take advantage of the "pay only for what you use" pricing.

Shift the responsibility of managing hardware and software updates, upgrades and patches to Connectria and Microsoft.

Focus on your business, not managing clouds

24x7x365 US-based support

Transition your VMs to Azure quickly and easily with our expert support services.

Relieve the burden and reduce the complexity of IT administration.
