

LOOKING FOR THE BEST HOSTING EXPERIENCE?

ENJOY “JERK FREE” HOSTING FROM CONNECTRIA.

The JERK FREE Company[®]

Jerks. Everyone knows at least one person who’s a jerk. We don’t like them. You don’t like them. No one likes them. That’s why at Connectria, we refuse to work with them, and we don’t accept “jerky” behavior either.

Our No Jerks Allowed[®] company philosophy is embedded in our culture, and is the reason we have achieved 100% customer satisfaction, been rated one of the Best Places To Work multiple times, and why we consistently receive the highest levels of support and respect from our partners and vendors alike.

No Jerks Allowed.[®] It’s what allows Connectria Hosting to deliver the best hosting experience. [Learn more.](#)

NO JERKS ALLOWED®

At the core of Connectria is our No Jerks Allowed® company philosophy. As the Jerk Free Company®, we've established a unique culture where every individual goes "above and beyond" to take care of our customers. We protect each customer's data like it's our own, with a relentless focus upon delivering secure and reliable solutions.

Being the Jerk Free Company® extends beyond our people. Connectria makes it easy to do business with us through flexible terms, scalable solutions and straight-forward pricing to serve the needs of large and small organizations alike.

We provide award-winning cloud computing, managed hosting and custom hosting solutions for more than 1,000 customers in over 30 countries.

We are experts in complex multi-vendor solutions and we support the broadest range of technologies, managed services and security in the industry. These allow us to deliver the highest Service Levels in the hosting industry, with unmatched reliability, security, flexibility and integrity.

OUR SERVICES

In 1998, we began hosting with just one customer. That customer happened to be Deutsche Bank, the world's largest bank. Our second client, IBM, soon followed. And, today, over 1,000 companies worldwide see us as an extension of their IT organization.

That's because, at Connectria, we won't just sell you space in a rack. We host one of the industry's widest range of technologies for Cloud, Managed, and Custom hosting solutions. And our entire approach is designed to meet your needs - not ours.

Our solutions can be either packaged or highly customized. Choose from a broad array of OS, database and application technologies. And if you don't see the technology you're looking for, contact us and we'll craft a solution for you.

Common Technologies We Support

- IBM Power Systems & Flex (AIX, IBM i, AS/400) • Compliance Hosting (HIPAA/HITECH, PCI DSS, SOX)
- Citrix • VMware • HP-UX • Sun Solaris • Oracle (11g, RAC, WebLogic) • Amazon AWS
- Microsoft (Azure, Office 365, Windows, ASP.NET, Hyper-V, Exchange, SharePoint, SQL Server, SQL Server Clusters)
- IBM DB2, Lotus (Domino), WebSphere
- Linux/LAMP (Open Source and RedHat) • MySQL • MySQL Clusters • Blackberry Enterprise Server

In the end, our ultimate business goal is to help you reach yours.

LET US HELP YOU DESIGN THE RIGHT HOSTING SOLUTION:

CONNECTRIA HOSTING SERVICES

DEDICATED

Choose from the widest range of dedicated server options in the industry, including Lenovo, HP & IBM Intel-based servers (running Windows, Linux, VMware, HyperV, or Solaris), IBM i (iSeries-AS/400) servers, IBM System p (running AIX) servers, Oracle/Sun Solaris servers, and HP Integrity (running HPUX) servers.

CLOUD

No one hosts as many technologies and cloud server options as Connectria. Public, private and hybrid cloud options are available for technologies including Windows, Linux, IBM i, IBM AIX, Clouds running VMware or Hyper-V, HIPAA Compliant Cloud Servers, Office 365, Managed Azure and Managed AWS.

MANAGED SERVICES

Backed by the strongest SLAs in the industry, Connectria provides standardized and customized managed service plans to meet your unique requirements, including compliance support plans for HIPAA, PCI and Sarbanes Oxley (SOX), Managed Azure and AWS. Remote managed services are also available for IBM, AIX, VMware, Windows, Linux, Lotus/Domino, Solaris, and HP-UX.
