With over 900 LPARs under our management, Connectria hosts more IBM i environments than anyone outside of IBM. Our range of IBM i Services include:

- IBM i Cloud
- IBM i Remote Management
- IBM i Dedicated
- IBM i High Availability & Disaster Recovery

Here's what some of our IBM i customers have to say:

DOMETIC

Greg Tipton, CIO Americas

"Our total experience in moving from an on-premise V5R4 system to the IBM i 7.2 Cloud was spectacular. Honestly it could not have gone any better. And the response from our end users was an immediate, noticeable improvement."

"Ongoing, we feel we get a great value for what we're paying. Everything that Connectria has provided and provides is well worth the money we've spent."

"We created a business model which compared purchasing the same IBM i 7.2 configuration and running on-premise versus hosting in the cloud, and the payback in the cloud was less than 18 months."

Milwaukee®

Eric Hanson, Director of IT Services

"Connectria has exceeded our expectations. Their expert remote management has helped us streamline and automate our processes, delivering tangible savings. Since Connectria has partnered with us, our relevant admin costs are a third of what they were."

CONNECTRIA®
HOSTING

Paul Sarrapy, President and CEO

"Grupo Porteo's advanced logistics systems provides us a distinct competitive advantage. We depend upon Connectria's high level of System i hosting services and uptime as a critical component to our solution and success. We view Connectria as a strategic partner and would recommend them without reservation."

Read the entire case study.

Darren Yonkin, CTO

"Even though we're not the system admin, we've been around for 43 years. We know the System 38, 400, System i and Power System. In talking with a lot of vendors, we often felt we knew just as much as they knew....until we met Connectria."

"Since we did not know exactly how many SaaS clients we'd get, Connectria's IBM i Cloud allowed us to grow as needed. If we need to size up, it's just a phone call, implemented the next day and invisible to the customer."

"Connectria is always willing to go the extra mile. We had issues due to Hurricane Sandy with our own development box and Connectria's engineers helped us to resolve them. They view our problems as theirs, which is rare in a hosting provider."

Tad Wharram, Partner

"We're leveraging Connectria's skills, they're one of the premiere hosting partners, especially in the IBM System i. There's hardly anybody out there that not only supports that environment, but does it so well."

"Connectria is so good at what they do, they make hosting complex environments seem easy."
