

# Proven, Fully Managed Services Enable Healthcare Organizations to Achieve and Maintain 24/7 HIPAA Compliance on the Microsoft Azure Cloud Platform

## MICROSOFT AZURE PARTNER PROFILE: CONNECTRIA

Connectria provides cloud computing and custom managed hosting solutions. As a leader in complex multi-vendor solutions, Connectria supports a broad range of technologies, managed services, and security. A longstanding Microsoft Cloud Service Provider, Connectria also provides 24/7 managed services and support on Azure, including HIPAA and PCI compliance.

### WHAT WE OFFER

#### 24/7 HIPAA/HITECH Managed Services

Connectria offers HIPAA-compliant managed services on Azure with comprehensive security and support features that address HIPAA/HITECH standards. The services also include setting up an Azure environment to meet HIPAA compliance needs, implementing the necessary levels of encryption in Azure, and 24/7 support to ensure Azure environments remain HIPAA compliant.

#### Solutions for the Healthcare Industry

In a complex regulatory environment requiring providers to keep protected health information (PHI) secure and reliable, many healthcare organizations have chosen to move their PHI to the cloud with companies that specialize in HIPAA-compliant hosting. Since 2007, Connectria has provided HIPAA-compliant hosting for hundreds of customers.

#### Healthcare ISVs and Software-as-a-Service

Many of Connectria's customers include independent software vendors (ISVs) that serve the healthcare market and must maintain HIPAA compliance. Whether you are a covered entity, a business associate, or a technology provider for the healthcare market, Connectria can help your organization implement and manage a HIPAA-compliant environment on the Azure platform.

#### Ongoing HIPAA Compliance Support

Connectria's dedicated HIPAA Compliance Team helps customers achieve and maintain their HIPAA compliance objectives. To preserve the quality of its services, Connectria is audited annually by a third-party assessor to ensure it continues to meet HIPAA/HITECH regulations. The audit extends throughout the company to ensure all employees receive HIPAA compliance certification.

### WHAT OUR CUSTOMERS ARE SAYING

"We felt the combination of Azure's strengths along with Connectria's extensive knowledge of managing and supporting Azure in a HIPAA-compliant environment aligned very well with ePreop's long-term business direction." – Joe Lesters, EVP, ePreop

# Microsoft Azure

Microsoft Azure is an open and flexible cloud platform that enables you to quickly build, deploy, scale, and manage applications across a global network of Microsoft data centers. You can build applications using multiple languages, tools, and frameworks.

## KEY USE CASES

### WEB APPLICATIONS

Build anything from lightweight websites to multi-tier cloud services that scale up as your traffic grows.

### CLOUD STORAGE

Rely on geo-redundant cloud storage for backup, archiving, and disaster recovery.

### BIG DATA & HPC

Get actionable insights from your data by taking advantage of a fully compatible enterprise-ready Hadoop service.

### MOBILE

Accelerate your mobile app development by using a backend hosted on Microsoft Azure. Scale instantly as your install base grows.

### MEDIA

Create, manage, and distribute media in the cloud – everything from encoding to content protection to streaming and analytics support.

### FLEXIBLE APPLICATION MODEL

Microsoft Azure provides a rich set of application services, including SDKs, caching, messaging, and identity. You can write applications in .NET, PHP, Java, node.js, Python, Ruby, or using open REST protocols. This is all part of Microsoft's promise to let you build using any language, tool, or framework.

### ALWAYS ON, ALWAYS HERE

Build resilient applications with automatic operating system and service updating, built-in network load balancing, and geo-redundant storage. Microsoft Azure also proudly delivers a 99.95% monthly SLA. You can rely on decades of experience in data center operations and trust that everything Microsoft Azure offers is backed by industry certifications for security and compliance.

### DATA CENTER WITHOUT BOUNDARIES

Microsoft Azure makes it easy for you to integrate your on-premises IT environment with the public cloud. Migrate your virtual machines to Microsoft Azure without the need to convert them to a different format. Use the robust messaging and networking capabilities in Microsoft Azure to deliver hybrid solutions, and then manage your hybrid applications from a single console with Microsoft System Center.

### GLOBAL REACH

With data centers around the globe, a massive investment in data center innovation, and a worldwide Content Delivery Network, you can build applications that provide the best experience for users, wherever they are.
